

Hi !
I'm Kilian

 +33 6 66 38 44 25

Skills

Adobe Creative Cloud + Figma
AI Prompting (GPTs, Flux/SD..)
End-to-End Website creation
HTML/CSS
Pragmatism
Adaptability
French - Native language
English - B2/C1
Kreyol - A2/B1

Personal

I grew up at the crossroads of Guadeloupe and France, an experience that shaped my creativity and broadened my perspective. I developed a passion for web design at an early age, starting with no-code platforms like Wix. Gradually, I deepened my skills by adopting HTML and CSS, exploring increasingly technical technologies.

My diverse background includes experience in architecture before specializing in graphic and web design. I'm currently pursuing my professional development through a work-study program at Air France, while cultivating a passion for photography, born during my time in Rennes.

Now you know more about me than most !
